Project Manager:

Brian Demery

Project Field Supervisor:

Jason Halass

Project Duration:

March 2006 – August 2006

**Customer: DCI,
New Jersey**

The Detroit School for Performing Arts project consisted of performing 100% of the low voltage cabling for a complete broadcasting studio.

The state-of-the-art studio has the capability to broadcast as a television and radio station. Bayview Electric Company, LLC was single sourced for this project because of their technical expertise and excellent workmanship. This project averaged a crew size of 8 technicians over a 6 month period.
